HLAVNÍ MĚSTO PRAHA
Ing. Václav Novotný
Náměstek primátora hl. m. Prahy pro kulturu, památkovou péči, výstavnictví, cestovní ruch a zahraniční vztahy

Praha, 24/02/2014

Dear Mr. Mayor Piero Fassino,

I regret not to be with you in this moment in your lovely city as Torino for sure is. I have got some essential information of your session in last days. For sure we, City Hall in Prague, greet so much your kind and needed initiative for making lives of our citizens better. I personally agree according to my longlife experience and effort to link culture and tourism together that cities and their leaderships could always improve their activities in order to attract new and new visitors, to arrange more flexible services, to adjust good living standard of homepeople, tourists and so to create new jobs and improve environment as well as hospitality in any city corner where it is suitable.

The subject European Citizens´ Initiative for Employment and Sustainable Development wants to harmonize ideas created throughout the continent and concentrate human, financial and natural sources in order to realize projects of good infrastructure, energy and water supply, knowledge and experience exchanges etc. We think that pan-European goals combined with local aims is a way of doing matters well and in the end of the day could help to exit from the current ovewhelming crisis.

If you have any concrete idea of the cooperation or possibility of the practical inclusion of the City of Prague to your multi-level project do not hesitate to contact us directly or through the national coordinator of your initiative. We are open all the time to good inspirations leading for well-being of visitors and inhabitants of our Golden City.

We admire your interest of our participation and remain.

Yours faithfully,

Václav Novotný, Deputy Mayor of Prague
